8 Employee count

Blue Shield asks the group to read these definitions of “employee” and provide the information requested using the definitions provided below. We rely upon the information provided by the group in determining group and employee eligibility for coverage.

1. All employees – Any individual employed by the group including full-time and part-time employees (29 USC 1002 (6)).

2. Full-time employee (FTE) and FTE Equivalent – FTE and FTE Equivalent is defined in Section 4980H(c)(2) of the Internal Revenue Code.

An FTE is an employee who has on average at least 30 hours of service per week, or at least 130 hours of service total, during a calendar month.

The number of FTE Equivalents is determined by combining the number of hours of service of all non-FTEs for the month, but no more than 120 hours of service per employee, then dividing the total number by 120.

3. Eligible employee – This definition is used to determine which employees are eligible to enroll, and remain enrolled, in coverage. An eligible employee is an individual who:

- Is an individual engaged on a full-time basis in the conduct of the business of the employer, whose normal work week is at least 30 hours, and whose duties in such employment are performed at the employer’s regular places of business; or
- Is a sole proprietor or partner of a partnership engaged on a full-time basis, at least 30 hours per week, in the employer’s business and who is included as an employee under a healthcare plan contract of the employer.
- An eligible employee does not include individuals working on a part-time, temporary, or substitute basis.
