

Something to smile about

We're here to help you look and feel like your best self

Having dental coverage offers much more than just professional cleanings and cavity checks for a bright smile. Regular dentist visits can detect and treat gum disease – called periodontal disease – which is linked to other health problems. So, cover yourself and your family with a dental plan to keep healthy and smiling.

Talk to your broker about Blue Shield of California dental coverage available to you.

1 in 4 adults feels embarrassed about the condition of their mouth and teeth.¹

People with severe periodontal disease are **twice as likely to develop type 2 diabetes.**²

Periodontal disease is **the number one cause of tooth loss.**³

A pregnant woman with periodontal disease is **7x more likely to have a premature baby.**⁴

Tooth decay is the single most common chronic childhood disease, ahead of childhood obesity, asthma, and diabetes.⁷

91% of Americans are living with tooth decay.⁵

59% of Americans say cost is the top reason for not visiting the dentist.⁶
