**Background:** If your organization is new to [Provider Connection](#), you must establish an account.

## **Establishing an account:**

The person executing the initial Provider Connection registration is considered an Account Manager. When the maximum allowed number of Account Managers register, Provider Connection will display a message. Most organizations can have at least two Account Managers. There are three types of provider accounts. The links below take you to step-by-step instructions with screenshots for how to register for the account type most appropriate to your business.

1. [Provider](#)
2. [MSO](#)
3. [Billing Service](#)

## **Account Managers:**

Once registered, the Account Manager(s) will see an *Account management* link in their top-level navigation after log in. It provides direct access to all activities falling within the role.

Once established, the Account Manager(s) – not Blue Shield – sets up user profiles. Blue Shield will email each user a temporary password. Users have 30 days to visit the site and change their password or the account will be deleted.

## **Users:**

All users have a *Manage my profile* page where they can do things like update their username/password, change their email, set their email preferences, and locate their Account Manager. After log in, a “badge” with the user’s initials appears in the white menu bar. Click this badge to access the *Manage my profile* page.

## **Additional support:**

- This [Provider Connection Account FAQ](#) provides answers to the most frequently asked questions about establishing and maintaining a Provider Connection account as an Account Manager or User.
- See [Update your Provider Connection password](#) if you need help changing your password or if your account is locked or disabled.
- The [Provider Connection training page](#) includes links to the above resources and more. No log in is required.

**Background:** Below is a high-level snapshot of how to navigate the [Provider Connection](#)\* website. Authenticated tools require log in, but there are many resources on Provider Connection that do not.

**Instructions:**

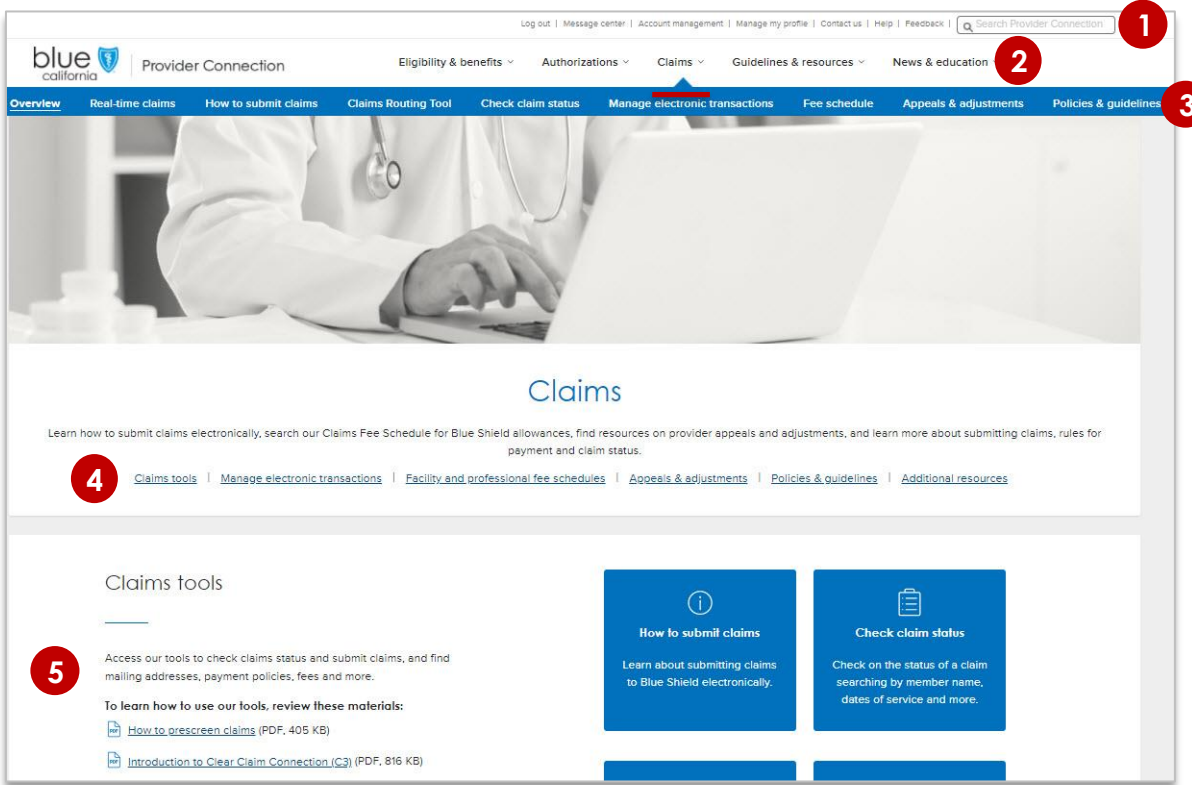

- 1. **Top level navigation:** General site actions like *Login/register, Help, and Search.*
  - Blue Shield uses two-step authentication. To verify your identity each time you login, enter your username/ password plus the code Blue Shield sends to your email.

- 2. **White menu bar:** Navigational links to the five site sections and the home page. The arrow indicates the section you are in.

- 3. **Blue sub-menu bar:** Direct navigational links for the most-used content and tools within the specific section.

- 4. **Category headings:** High-level table of contents for information on the page. Clicking a category heading takes you to a category.

- 5. **Categories:** Contain quick links to tools and resources when appropriate, and clickable boxes that take you to your desired information.

\* Blue Shield Promise resources that do not require log in are integrated throughout Provider Connection. They are also available from the [Blue Shield Promise Provider Portal](#). Links in the footer of each page allow you to move between the two websites.

**Background:** Blue Shield has designed our provider directory accuracy processes to be compliant with both the 2021 Consolidated Appropriations Act (CAA) and California Senate Bill (SB) 137 requirements.

**Process:**

- Online attestation to data accuracy every 90 days. Blue Shield will alert a provider when it is time to attest.
- Directory updates at any time either by:
  - Single edits on the Provider Connection *Provider & Practitioner Profiles* page.
  - Blue Shield's bulk data file – the *Provider Data Validation Spreadsheet* – downloaded from *Provider & Practitioner Profiles*, then uploaded back to the page.

**Who can execute this process:**

- Provider Connection Provider and MSO Account Managers and users to which they give provider demographic information access. See next page for how to assign user access.
  - Billing Managers have view-only access.

Visit [Provider data management](#) for step-by-step instructions on how to attest and update provider directory information in compliance with federal and state mandates.

**Background:** Account Managers can assign provider demographic data access to designated users so that the most appropriate staff members validate/update/attest to provider directory information.

## Instructions:

1. From the *Account management* page, click **Manage your user accounts** located under the *Manage user accounts* section.
2. Click the **View** link for a specific user.
3. That user's *Account information* will display.
4. Move the *Provider & practitioner data* toggle to the right.
5. When the user logs in after access is granted, they will see a link to *Provider & practitioner profiles* in their top navigation bar.
