

CONTINUITY OF CARE PROGRAM

Blue Shield of California's Continuity of Care Program helps eligible members remain under the care of a current provider. This publication describes how to qualify for continuity of care services after your plan changes.

Maintaining continuity of care

Blue Shield recognizes the importance of maintaining a strong doctor-patient relationship when you change healthcare plans. Staying with a provider while receiving care for a serious medical condition is especially important.

That is why Blue Shield created the Continuity of Care Program and why we're excited about recent changes in the law, which have expanded eligibility for these services to more of our members.

Continuity of care for newly enrolled members

If you or your covered dependents are new enrollees in a Blue Shield plan and are currently receiving treatment for a qualifying medical condition from a healthcare provider that does not belong to Blue Shield's provider network, you may be eligible to complete treatment of your condition with your current provider. Please note, however, that the Continuity of Care Program is not available to all new enrollees of Blue Shield plans.

Who is eligible?

You may qualify for continuity of care services:

- You are a current subscriber or enrolled dependent and are currently receiving treatment for a qualifying medical condition from a provider that is no longer in your health plan's network.
- You or your covered dependent are newly enrolled and are currently receiving treatment for a qualifying medical condition from a healthcare provider outside of Blue Shield's network.
- You are a member whose employer group makes a plan change and the group no

longer offers coverage that would allow you to complete your current course of treatment with a network provider.

- You or your covered dependents had continuous health coverage, but your last health plan prior to enrolling with Blue Shield withdrew from the health plan market.
- You are a Blue Shield plan subscriber or a covered dependent receiving treatment for a qualifying medical condition from a non-network provider, and your Blue Shield plan offers no non-network benefits.

Qualifying medical conditions

Depending on your plan terms and conditions, medical conditions that qualify for continuity of care services may include:

- an acute condition requiring prompt medical attention for a limited period of time
- a serious chronic condition, until a course of treatment is completed such that safe transfer of care to a provider in your plan's Blue Shield network is possible
- pregnancy and postpartum care
- care for an infant from newborn to 36 months old
- maternal mental health conditions during pregnancy, around the time of birth, or postpartum, up to one year after delivery
- a surgery or other treatment recommended and documented by a provider no longer in your plan's network, which would take place within the allowable time frames according to state and federal laws
- terminal illness which may exceed 12 months from the contract termination date or the effective date of coverage for a new enrollee.

The length of time that continuity of care services are available depends on the qualifying medical condition. The administration of services must be approved by Blue Shield, and your non-network provider of services must be willing to accept Blue Shield's network (contracted) rate and agree to collect only the applicable copayments or coinsurance.

Non-network providers are not allowed to charge members the difference between Blue Shield's contracted rate and the out-of-network rate ("balance-billing").

Who is not eligible?

If any of the following scenarios apply, eligibility requirements for continuity of care have not been met:

- You are a new Blue Shield subscriber or dependent who has non-network benefits.
- You are a new Blue Shield subscriber or dependent who has had no previous continuous health plan coverage.
- You are a member who has not established treatment with a non-network provider prior to your date of enrollment with Blue Shield.
- You are a member who does not have a qualifying medical condition.
- You are a member whose non-network provider is not willing to accept Blue Shield's network contracted rate.
- As a current Blue Shield member, you voluntarily change your plan, and your current provider is not part of the new plan's network.
- You are a member who is enrolled in a self-funded group, and your employer does not offer continuity of care services.

Other considerations

Mental health services

Continuity of care is available if you are currently receiving services for a serious mental health condition. For more information, please contact our mental health service administrator directly by calling the Mental Health Customer Service number on your Blue Shield member ID card.

Dental services

If you are currently receiving services for a serious dental condition, and you or your employer purchased additional dental plan benefits from Blue Shield, you may be eligible to continue care with your current dental provider.

For more information, please contact our dental plan administrator by calling the Member Service number on your Blue Shield member ID card.

Non-network providers

If your treating physician or other healthcare provider (such as a hospital) does not belong to the provider network for your health plan, the Member Services department will evaluate your needs for continuity of care and, if you are eligible, will direct your Continuity of Care Services Request Form to the appropriate department.

Your provider of services must then agree to certain conditions, which include agreeing on terms and methods of reimbursement that are like those used by the plan for participating providers in the same pricing region as permitted by state law.

If your provider does not agree, then your request for completion of care with the non-network provider will be denied. In those instances, Blue Shield will notify you in writing of any special provisions and/or limitations.

Services covered under the Continuity of Care Program do not include benefits that are not otherwise covered under the terms and conditions of your Blue Shield plan contract or policy.

How to apply for continuity of care services

If your provider leaves your Blue Shield health plan's network and you believe you qualify for our Continuity of Care Program, please complete a Continuity of Care Request Form and return it to us, as instructed on the form.

The form is available for download on Blue Shield's website at blueshieldca.com/bsca/member-forms.sp. You may also contact Blue Shield Member Services at the number of the back of your member ID card to obtain a Continuity of Care Request Form.
